CAREER OBJECTIVE

Passionate coder having good problem-solving skills and particularly interested in how Software Engineering can be used in the industry. Seeking a challenging position as a programmer in a reputed organization where I can utilize my technical skills and knowledge to solve problems and contribute to the growth of the organization while enhancing my skills and knowledge. You shall find! Responsible, hardworking, dedicated, trustworthy and committed to work on new technologies and projects.

CORE COMPETENCIES

- | | | |
|---------------------------------|---------------------|--------------------|
| • Data Structure and Algorithms | • Image Analyst | • OOPS |
| • Programming/Coding | • Problem Solver | • Operating System |
| • C/C++/Python | • Computer Networks | • DBMS |

WORK EXPERIENCE AND INTERNSHIPS

Software Intern, Sequelstring Solutions and Consultancy Pvt Ltd – Mumbai FEB 2023

- I have worked in the domain of image analytics at SequelString Pvt Ltd. I have worked on openCv, tesseract, libraries of Python. The best part of working at SequelString is continuously getting tough challenges and frequent brainstorming sessions with the project Incharge of the need for continuous learning, new tools and technologies.

Game Developer, Teknack Gaming Studio – ACM-DBIT OCT 2022– MAR 2023

- Designed and Developed an Android Game using the Unity Engine which is published on the Playstore. The game name is The Track Titans. These Camp helped me in enhancing my game development skills.

□

Cloud, Google Cloud Facilitator Program – Mumbai MAR 2022 – APRIL 2022

- In this program, I practiced hands-on on Qwiklabs. Here, I got to know the concepts of computing, application development, big data, and machine learning. I learned an industry's oriented perspective of using cloud technology.

EDUCATION

Don Bosco Institute of Technology, Mumbai - University of Mumbai

Bachelor of Engineering in Computer Engineering, 2020 - 2024

- | | |
|--|---|
| • CGPA: 8.3/10.0 (till Sem 5) | • Introduced new technologies and initiatives in the computer department and institute. |
| • ACM – Largest Technical Student Chapter on Campus- Technical Team (2021-22). | • Teknack for 1 year – Teknack is the only gaming studio in India which is fully run by the college students. |
| • (SSC) Shri Parshwanath English Medium School. | • WCE Hackathon with the team Genisis – Sangli |
| • (HSC) Sanjay Ghodawat Institute. | |

PROJECTS
